

Whether you think of them as storm windows, secondary glazing, or **Performance Panels™** – our custom commercial-grade products still provide significant immediate and very “green” benefits.

- ROI of 12-30%, with energy-saving paybacks of 2.5 to 9 years
- Up to 50% reduction in exterior noise level
- “Invisible storm windows” that meet historic standards
- Comfort, UV reduction, protection, light reduction, -the list goes on

**Any building with single glass is a strong candidate for our products:**

- Historic government buildings at the federal, state, county, or city level
- Commercial buildings with steel, wood, or aluminum windows
- Curtain-wall buildings built in the 1950-1975 era, -before the oil crisis
- Factory buildings or schools being re-born as office space or residences

Allied Window custom-designs high quality **interior** or **exterior** products to adapt to the needs of each window opening, and there are “No Limits” on what we can do. Our list of successful government building projects covers almost every state and Washington, DC.

***Green is Gold***

**Storm Windows Present an Environmental “Golden Opportunity”**

- Reduce heating and cooling energy losses through windows by about 50%
- Increase comfort level throughout the building....ease off on the thermostat !
- Opportunities for increased solar control
- Reduce the pollutants involved in energy consumption
- Reduce energy and materials required, -compared to replacement windows
- Significantly reduce or eliminate damage from condensation
- Prolong life of existing windows
- Eliminate old windows going to land fills
- Increase viability of older structures, -to attain new life and avoid demolition

# HERE THEY ARE!

## Remarkable One-Of-A-Kind Storm Windows For Historic Properties, Commercial Buildings, Renovation Projects

Nowhere else in the country can you find these unique storm windows! They're custom-designed, engineered and crafted so that they seem to actually disappear in the opening. We achieve the invisible storm windows by using:

- Custom colors and finishes
- Special shapes
- Custom designs
- Heavy extruded frames
- Engineered installations

What's more, our storm windows have been approved for use on historic renovation projects certified by the Department of the Interior (National Park Services).

**External Installation**  
Historic One Lite (HOL)

**Internal Installation**  
Allied One Lite (AOL)  
Magnetic One Lite (MOL)  
Slide-A-Way (SAW)

Naturally, the traditional benefits of storm windows are also yours:

- **Energy Savings.** Energy loss through the window opening is reduced by almost 50%. Storm windows can be as energy-efficient as new windows — but at a fraction of the cost.
- **Comfort.** Drafts and uneven heating or cooling problems are eliminated.
- **Condensation.** Existing condensation problems are virtually eliminated.
- **Sound.** Outside noise is dramatically reduced.
- **Maintenance.** The life of the paint on the windows is prolonged; putty and plaster repairs are reduced.
- **Protection.** Special glazing protects existing windows from vandalism and provides additional security.

## THE WINDOW PROFESSIONALS

### SPECIFICATIONS AND DRAWINGS

Our Window Professionals work with owners, architects, building managers, engineers or other contractors to determine the customer's needs. Our goal is the optimum balance of performance, appearance and cost. Customer orientation to specifications, drawings and cost alternatives leads to informed decisions.

### OFFICE BUILDINGS

Window performance, energy costs, maintenance, code requirements and tenant satisfaction are all critical factors in evaluating storm window systems. The installation of storm windows is an investment that quickly pays for itself, and helps your building appreciate in value and desirability.

### INDUSTRIAL PLANTS

Most industrial storm window situations require a custom approach. Cost, energy savings and low maintenance are always key factors. We engineer alternative approaches utilizing the complete range of window products that we manufacture. These include storm windows, screens and guards.

### QUALITY ASSURED

Since 1950, the name Allied Window, Inc. has been synonymous with superior craftsmanship and the finest quality materials available. That is why we can offer a **five-year warranty** on our manufactured products... and a one-year warranty on our installations. You expect new windows to last for decades. So do we.

### SCHOOLS, HOSPITALS, CHURCHES

By definition, institutions involve *people*... and their needs are usually paramount in determining storm window requirements. Competent, professional help in reaching the right solution is our forte, as is *our* concern for *your* people.

### RESIDENCES, APARTMENTS

Whether you own a castle or a cottage... whether you own apartment buildings or manage them... you need window professionals in whom you can place your trust—confident of receiving quality products with lasting value.

# MAGNETIC ONE LITE "MOL"

## Standard Design

Lift-out Panel

**The Magnetic One Lite (MOL)** has been designed specifically for internal installation on commercial, industrial and residential buildings.

- Ideal secondary glazing for fixed windows and all styles of prime windows where ventilation is not a major factor. *Virtually invisible.*
- Tightest seal storm window design available.
- Frames and corners are heavy aluminum extrusions.
- Double-strength glass (DSB) is standard glazing material.
- Acrylic (Plex) and polycarbonate (Lexan) glazing available.
- Panels have heavy-duty magnet which adheres to steel tape.
- Lift out easily for cleaning.
- Custom colors, glazing, muntins and screens available.

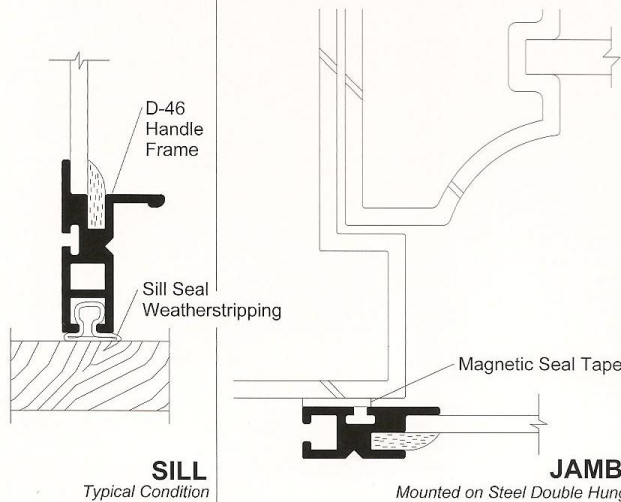

## MOUNT TO DEEP GUIDE CHANNEL

Plaster, drywall,  
wood or metal jambs

## MOUNT TO STEEL TAPE

Wood D/H

# HISTORIC ONE LITE "HOL"

Approved for exterior installation on historic renovation projects certified by the Department of the Interior (National Park Service)

The Historic One Lite (HOL) has been designed specifically for double-hung windows on historic commercial, industrial and residential buildings.

- Custom colors and shapes.
- Custom engineered.
- Trim lines — *practically invisible*.
- Unit projects only  $\frac{3}{8}$ ".
- Panels remove to interior.
- No hardware on exterior.
- Interchangeable screen and glass.
- Frames and corners are heavy extrusions.
- Special glazing available.
- Glazing muntin available.
- Top sash of prime double-hung **must** be operable.
